INCIDENT TYPE CODES

The following is a comprehensive listing of valid incident type codes that are acceptable for use in the I/CAD System. The I/CAD System has the ability to generate multiple dispatches for Police, Fire and EMS (combined incident) from a single incident entry type. These incident types were developed to facilitate that ability, as well as better identify the particular type of incident being dispatched. The incident type codes are included for your reference and use.

OUT OF SERVICE TYPE CODES

The following is a list of out of service type codes available for use in the I/CAD System. These out of service codes were developed to allow field personnel to more accurately track their shift activity.

	<u>OUT OF SERVICE CODES</u>
BRK	BREAK
CORT	COURT
DET	DETAIL
DECN	DECONTAMINATION
FOOT	WALKING BEAT
FTOS	FIELD TRAINING OFFICER SUMMARY
LUNC	LUNCH
MAIN	VEHICLE MAINTENANCE
OUT	OUT OF SERVICE
TRNG	TRAINING

FINAL ACTION CODES

The following is a comprehensive listing of valid final action codes. This final action code list has been developed to more specifically indicate what action was taken on incidents. Any applicable final action codes may be used to record your activity on a particular incident. You may use, depending upon the procedures followed by your agency, as many final action codes as needed. If you use more than one, make sure you start from most important to least important, when advising the dispatcher of your final action codes (e.g., 12, 17, 37, 01, 01, etc.).
